Soniseal™ 40 WD Series
Ultrasonic Sealer for Food and Pharmaceutical Packaging

Benefits

- Saves time - full wash-down capability allows system to remain on machine during cleaning.
- System stays cool, minimizing delays before cleaning.
- Minimal heat production also reduces energy consumption and damage to product.
- Lightweight, compact design easily integrates into existing systems.
- Durable - isolated electrical components are completely protected from moisture.
- Resists corrosion - strong, hermetic seals eliminate the need to bag the system when cleaning.
- Designed to IP 67 Standards, withstanding high pressure chemical wash down and high temperatures.
Soniseal™ 40 WD SERIES
Ultrasonic Solutions for Packaging Applications

• Ideal for food manufacturing environments in which lower maintenance, reduced energy costs and sanitary design are priorities.

• Designed to withstand typical sanitation practices.

• Seals very close to product and produces very narrow seals which results in an opportunity to reduce material consumption through reduced fin seal size.

• Industry proven robust design allows for long service life and low maintenance requirements.

*Weight and dimensions are approximate and do not include additional components.
